

# Testing Tank

Bayou Vista, LA

Phoenix has a new, modern test tank, built in 2022, at our Bayou Vista, LA facility that measures 13' 6" OD X 40' H and holds 42,000 gallons.

This tank includes an open walkway encircling the top, strategically placed view ports around the tank for the monitoring of activities, and an air diving control system with full diver communications and real-time video display and recording.

## Applications

- Underwater weld testing (both wet and dry habitat conditions)
- Underwater Nondestructive Testing (NDT) applications
- Performance trials
  - Underwater welding certifications
  - Underwater tooling calibration and testing

## Client Rental

The tank is available to be rented out by clients to perform equipment or material trials in a controlled underwater environment prior to project execution.
